Reasons to Work with Transforming Animal Health Services and Solutions (TAHSSL)

We value collaborative partnerships:

TAHSSL is a tripartite product development and commercialization platform established by ILRI, GALVmed and Clinglobal. We form strategic partnerships to ensure we deliver on our promise of getting animal health products to market in low-middle-income countries (LMICs).

01

We are purpose driven:

We provide suitable technologies, laboratory and clinical research services to clients while staying true to our mission on development of affordable and effective climate-friendly animal health products for sustainable use by small scale producers in LMICs.

02

We are innovative and responsive:

We identify, develop or adapt technologies and technology platforms to accelerate product development. We work towards meeting our clients' needs while prioritizing solutions that have high likelihood to succeed when applied to LMICs disease control conditions.

03

Your business is our business:

We are client-centric and endeavor to provide value. We generate and avail information to assist clients with product registration authorization and provide market intelligence to enable them make informed investment decisions. We help our clients navigate regulatory processes and deliver products into farmers hands while realizing a return on investment.

04

We strive for excellence:

Our multidisciplinary teams have expertise and experience in developing and delivering solutions to problems limiting livestock production in LMICs. We have a culture of continuous improvement and a track-record of implementing trials in sub-Saharan Africa according to good clinical practice.

05

We place a premium on efficiency:

By operating as a one-stop-shop where our clients can access R&D, clinical studies and market & regulatory assistance, we have streamlined contracting and research agreement processes through a central system, ensuring we meet our clients' needs in a timely and cost-effective manner.

06

Trust and integrity form the foundation of our work:

We are alive to the challenges in the LMIC R&D and commercialization pipeline and take cognizance of concerns by global animal health companies. To deliver our vision for small scale producers in LMICs while meeting the demands of our clients, we conduct business according to the highest ethical principles.

07

We are committed to diversity and equity:

We recognize that delivering animal health products to small-scale producers in LMICs presents multifaceted challenges as well as opportunities to improve the livelihoods of millions of people, and establish viable markets. To deliver its promise, TAHSSL respects the culture and diversity of animal health stakeholders and works with like-minded organizations to promote fair practice in the industry.

08

We think globally and act locally:

TAHSSL will significantly contribute to Africa's development footprint, Agenda 2063, which prioritizes agricultural productivity and production, and the United Nation Sustainable Development Goals (SDG) 1, 2 and 13 on zero poverty, zero hunger and climate action.

09

We strive for sustainability:

TAHSSL was established with core funding from BMGF, and is hosted in one of Africa's leading livestock research organizations, with a history of delivering animal health solutions to small scale producers. We aim to transition from a donor-driven product development platform to a self-sustaining product development partner of choice for LMIC animal health clients.
